

Certificate

The brawema GmbH hereby confirms

Plamen Vitanov

born on 07/05/1977 in Sofia/Bulgaria the successful participation in the training:

Proof of qualification for working

on commercial vehicles with HV systems according to
DGUV I 209-093 HV Level 2S and ÖVE R19 HV-2

from 08/04 to the 09/04/2024 in Heidenheim.

Topics:

- ✔ Legal basics
- ✔ Basics of vehicle electronics
- ✔ System knowledge of electric and hybrid vehicles
- ✔ Hazards when working on HV systems
- ✔ Protective measures when working on HV systems
- ✔ Measurement technology and measuring on HV systems
- ✔ Practical exercises on the vehicle

Instruction has been given on the possible dangers of improper behaviour and on possible protective measures. The knowledge acquired has been verified by a theoretical and practical examination. Activities in the HV area may only be carried out with the authorisation of the employer in accordance with the national occupational safety and health act, electrical protection ordinances and other national regulations (e.g. ArbSchG, ASchG, DGUV V3, ESV 2012). The qualification was completed in 16 training units. The qualification corresponds to the German DGUV Information 209-093 and Austrian ÖVE R19.

Zusmarshausen, 11 April 2024

Robert Meffert
